

A LUXURIOUS HOME AT RANGOLI

Each New Year brings a new set of modern interior design styles for apartments. Despite the fact that the entire concept of luxury home interior has been revolutionised by the pandemic, 2023 house Interiors are all about an interpretation of your style with bold and fearless features. A luxury home interior is no longer just about beauty; it is also about an individual's comfort and wellbeing.

Neutral colours can make a home appear larger while also adding an air of elegance and chicness. The asset interiors and customization team has included a variety of design elements, such as choosing a neutral colour theme to keep the apartment calm and cool.

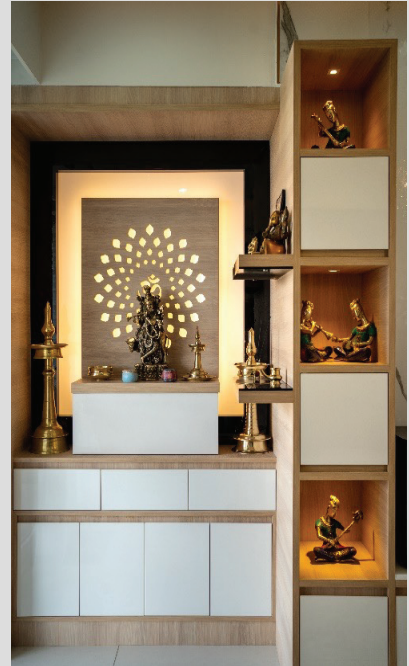

FOYER

A lovely and well-organized entryway will make a house feel more welcoming. A beautifully styled console table adds a finishing touch to a foyer or hallway.

LIVING

A marble finish wall can be used to create a luxurious TV wall unit design. The rest of the wall is kept simple with Acacia wooden and glossy white laminated TV bottom unit and pooja unit.

DINING

A modern and simple crockery unit is a cabinet that is used to store cutlery, dinnerware, and tableware. Natural sunlight is extremely beneficial to your health and should be available in every home. Natural light and false ceiling lighting provide uniform lighting throughout the room.

BEDROOMS

Everyone spends a significant amount of time in their bedroom because it is the most relaxing area to unwind after a long day. Family feels safe and at ease in this area, thus it requires the nicest setting, facilities, and provisions.

Bedroom furniture such as cots, side tables, wardrobes, and dressing tables take up almost all of the space in a typical bedroom. To maintain bedroom excellence, choose bedroom furniture that matches the style of your bedroom interior design.

KITCHEN

Acrylic kitchen cabinets have grown in popularity among the various finishes, owing to their glossy surface, durability, and low cost. This material also gives cabinets an expensive and sleek appearance.

Kitchens require plenty of storage to keep your counters clear and all of your utensils organised. Cabinets define the aesthetic of your kitchen in addition to providing storage and organisation. The vibe and feel of your kitchen will also influence the food you prepare!

CLIENT SPEAKS

Rangoli 10A, proudly owned by Mr. Anoop Menon and his family.

We chose asset interiors to design our apartment after hearing so many positive things about them. This was a risk because many of our friends advised us to go with other well-known interior design firms in Kochi. Asset, as usual, lived up to its name and provided us with a lovely home. Mr Akhil, the senior interior designer, was always with us, whether it was answering our calls at odd hours, listening to our strange requirements, or accompanying us all the way to endless shopping. We will always be eternally grateful to the team, particularly Mr Sivaprasad from the project team, for their earnest efforts. Many thanks to the wonderful team at asset for assisting us in making our dream home a reality.

Team behind design and execution: Mrs.Seena Rajesh, Mr. Akhil Sivaraman, Mr. Sivaprasad, Mr. Amal Joseph, Mrs.Shameena Shafeeque , Mrs.Reshma Raveendran
