

A Sleek & Minimalistic Home @ Kollam

Asset Homes Interior Team has imparted a minimalistic aesthetic to the flat no. 7A of our Grandios Sterling project.

The customer's vision of embodying tranquillity and serenity in their home is the main idea that has driven Asset Homes Team to design a bespoke apartment.

The spaces throughout the house are designed in a very homogeneous manner by selecting and carefully matching the type of material used for furniture, fittings and wall accents.

Living Room

The partition of the living and dining area is carefully designed using CNC cut out panelling work.

Shelves are provided on both sides of the partition with spotlights.

The sideboard, TV unit, wall mountings are in-house designs specially crafted by Asset Homes team to complement the overall calming aura of the space.

Master Bedroom

The master bedroom blends in the scheme of things, with the help of neat design.

The colour palette is restricted to tones of natural Oakwood, whites and greys. The study table has a mounted shelf whose unique framing draws attention and adds depth to the room.

Kitchen

Modern modular Kitchen and attached extended working area with matching fittings staying true to the theme of the house.
